Great property that has been well maintained. This Bellamah home has been enlarged by adding a Private suite, bath and larger living room increasing the foot print to a 4 bedroom home. Recent new roof and remodel of kitchen and baths. Ready for quick move in or investment property. The backyard backs up to State Land giving the owner peace and quiet and open space with view of the mountains. Close to shopping and Marc Brandt Park with walking trail, picnic tables, park benches and shade trees. You're going to love this one.
